PROFESSIONAL SUMMARY

MERN Stack Developer with 1+ year of hands-on experience building 10+ full-stack applications, including an Authentication Platform, a Dialogflow AI chatbot, an E-Commerce website, a Real Estate website, and a Salon/Hair Management System. Currently interning at Smit Tech, building a complete LMS for a Quran Academy. Skilled in RESTful APIs, JWT, Python, GitHub Actions (CI/CD), Git, Agile collaboration, and clean code practices. Completed a Generative AI course (2025).

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Context API, Next.js

Backend: Node.js, Express.js, REST APIs, JWT, bcrypt

Database: MongoDB (NoSQL), PostgreSQL (SQL), Mongoose ODM, Prisma ORM

AI & Tools: Generative AI, Dialogflow NLP, Prompt Engineering

DevOps: Git, GitHub, GitHub Actions (CI/CD), Docker (basic), Postman, Cloudinary

Testing: Jest (basic), Manual Testing, GitHub Code Review

Soft Skills: Problem Solving, Agile, Team Collaboration

WORK EXPERIENCE

MERN Stack Developer Intern | Smit Tech

May 2026 – August 2026 (Ongoing, 3-Month Internship)

- Working on real-world full-stack MERN projects as part of a 3-month development internship.
- Learned and applied GitHub Actions to set up CI/CD workflows for automated build and deployment.
- Learned Python programming to strengthen backend logic and scripting capabilities.
- Built a Real Estate Website with property listings, search, and filter functionality using the MERN stack.
- Developed a Social Media Handling Website for managing and organizing social media content.
- Currently building a complete LMS (Learning Management System) for a Quran Academy, covering course management, student enrollment, and content delivery.

PROJECTS

Authentication Platform — JWT authentication, bcrypt password hashing, role-based access control, 100% protected routes. Stack: MERN.

Dialogflow AI Chatbot — NLP-powered chatbot with 5+ intents integrated into a React.js frontend, reducing support queries by ~40%.

E-Commerce Website — Full MERN store with cart, authentication, orders, and Context API state management across 10+ components.

Real Estate Website — MERN-based property listing platform with search and filter functionality for buyers and renters.

Salon / Hair Management System — Full-stack system to manage salon appointments, staff, and services. Stack: MERN.

Social Media Handling Website — Web app to manage and organize social media content and posting workflow.

Quran Academy LMS (In Progress) — Complete Learning Management System covering course management, student enrollment, and content delivery.

Health App (AI Report Checker) — AI-powered medical report analyzer delivering summaries in under 5 seconds.

Other: Todo App (CRUD + MongoDB), User Management Dashboard, Medicine Website (50+ listings), Portfolio, Dice Game.
